

DIRECTIONS FOR USE:

Use in accordance with recommendations of a qualified individual or institution. Do not allow to freeze. Liquid Calcium Nitrate is compatible with many crop protection products as a tank mix partner. MORR, Inc. recommends a compatibility (jar) test before field mixing and application.

Always read and follow all individual product labels before use. For more information, visit MORR.com

Soil Application: Apply 2x2 or at sidedress or topdress. Do not apply directly on the seed in saline, alkali, or coarse textured soils.

Foliar Application: Fill spray tank with water prior to adding fertilizer or other products. Use only as a supplement to a regular nutrient management program. Repeat applications may be beneficial. Use only as directed to avoid foliar burn. Do not apply when crop is excessively stressed for moisture or during periods of high temperatures. Use of a surfactant may enhance leaf coverage and increase nutrient absorption.

RECOMMENDED RATES:

This product should be used on the basis of a soil and/or tissue analysis. Suggested application rates are for one growing season (gallons per acre) in the absence of soil and/or tissue analysis.

	Application	Use Rate (per acre)	Timing
Field & row crops	Soil	4-8 quarts	Add to fertigation/pesticide program
	Foliar	2-4 quarts	
Tree & bramble fruits; nut trees, other fruits	Soil	4-8 quarts	
	Foliar	2-8 quarts	
Vegetables	Soil	4-8 quarts	
	Foliar	1-2 quarts	

pH: 6.5 | Salt Out: -30°F

PRECAUTIONARY STATEMENTS:

- Call a poison center or physician if unwell.
- Wash hands after handling.
- Use only outdoors or in well ventilated areas.
- Avoid breathing mist.
- Store container tightly closed.
- Dispose of contents or container in accordance with national/regional/local regulations.

AMERICAN
