FEATURES

- ☑ Ecourages rapid vegetative growth and root development
- ☑ Contains chelated micro-nutrients
- ☑ Highly concentrated for commercial use
- ☑ Soluble powder can mixed and applied through any type of irrigation system
- ☑ Compatible with automated dosing systems
- ☑ Contains amino acids/metabolic catalysts
- ☑ pH buffered

GUARANTEED ANALYSIS:

Total Nitrogen	3.0%
3.0% Nitrate Nitrogen	
7- Nitrate Nitrogen	
Available Phosphate (P_2O_5)	%
lable Phosphate(P_2O_5)	12.0%

Derived from: Ammonium Phosphate, Monopotassium, Phosphate,

Soyb
Extract, (Ascophyllum Seaweed Extract, (Kappaphycus
act (Kappaphycus Alvarezii), Calcium Carbonate, Calcium

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:
1% Humic Acid (Derived from Leonardite)

DIRECTIONS:

Add Hybrid Veg to the spray tank when half full. Agitation in the tank will enhance the speed of solubility. Allow extra time for highest rates and areas with extremely cold water to completely solubilize before spraying.

FOLIAR APPLICATION RATES:

Apply liberally to plant foliage every 7 - 10 days.
1 teaspoon per gallon - Small scale
5lbs per 1000 gallons - Large scale

HYDROPONIC/SOIL ROOT DRENCH APPLICATION RATE

Mild rate: 1 teaspoon per gallon = approx 300ppm (0.5 scale)
Moderate rate: 2 teaspoons per gallon = approx 600 ppm (0.05 scale)
Aggressive rate: 3 teaspoons per gallon = approx 900 ppm (0.05 scale)
Max recommended rate: 4 teaspoons per gallon = approx 1200 ppm (0.05 sca

HYBRID VEG 12-12-12

Hybrid Veg is a water-soluble fertilizer containing nitrogen, phosphorus, and potassium. Do not apply to crops during periods of stress.

HYDROPONICS • SOIL • COCO • FOLIAR
