

NKH306

Release is a microbial root inoculant intended for broad use in agriculture

Contains naturally occurring microorganisms

Beneficial Microbes + Nitrogen Fixation

2.5 Gallon

Volume: 9463 mL/320 fl oz

Establishes beneficial microbial populations in the root zone

Safe to use with compost teas, fertilizers and other additives

HYDROPONIC APPLICATIONS ----

RELEASE

- Release is a microbial root inoculant intended for broad use in agriculture.
- Contains naturally occurring microorganisms.
- Establishes beneficial microbial populations in the root zone.
- Safe to use with compost teas, fertilizers, and other additives.

DIRECTIONS:

Only use with non-chloringted water.

For a standard application use 1 ml of Release per 1 gallon of water.

Allow the mixture to rest for 30 minutes but not longer than 4 hours prior to application.

Apply Release once every 2 weeks throughout the plant's life cycle.

FOR OPTIMAL RESULTS APPLY AS FOLLOWS:

- ◆ Hydro Inoculation/Clones: ◆ Transplants: 2 ml per 2 ml per gallon of water
 - gallon of water
- ◆ Vegetative: 1 ml per gallon of water
- Flowering: 1 ml per gallon of water

GUARANTEED ANALYSIS

3.2 million colony forming units/cc (units/ml) CONTAINS NONPLANT FOOD INGREDIENTS

STORAGE CONDITIONS: Store at room temperature out of direct sunlight.

EXPIRATION DATE:
