

## ARABLE ACRES SANITIZING FOOTBATH MAT WITH 2.5" TALL WALL EDGING

Arable Acres sanitizing footbath mats by MORR are designed to keep hygienic areas free of debris and germs. If you have been wondering what you can do to help prevent dirt and germs from entering your farm or cultivation facility the sanitizing foot mat is the answer. Placed at the entrance of sensitive areas, these floor mats are particularly effective for protection in farms and crop production facilities, water rooms, grow rooms, greenhouses, and for any bio sensitive industry.

Simply fill the floor mat with germicidal solution and step through to decontaminate shoe soles or boots. Sanitizing foot mats aid in destroying viruses, bacteria, and microbes with ease.

- Tall wall sanitizing foot mat includes pliable 1/2" rubber scrapers on mat surface to dislodge contaminants from shoes and boots
- For best decontamination, shoe soles must be immersed for one minute
- Floor mat available with black or yellow safety border

## FOOTBATH DILUTION GUIDE

The Center for Disease Control (CDC) recommends 500 ppm (1:100 dilution of household bleach) to 5000 ppm (1:10 dilution of bleach), depending on the amount of organic material present.

NOTE: using undiluted or higher concentrations of chlorine can breakdown rubber products like footbath mats. A sanitizing powder can also be used for disinfection.
